PROFESSIONAL SUMMARY

I have been living in Poland for about six years, where I am currently pursuing a degree in Informatics. Over the years, I have developed a deep passion for web development. I love creating dynamic and responsive websites using modern technologies such as React, Next.js, Express.js, Redux, Zustand, TypeScript, and Node.js. My journey in Poland has not only enriched my academic knowledge but also fueled my enthusiasm for building innovative web applications.

SKILLS

Framework: React JS, Redux, Material UI, Bootstrap, Tailwind, SASS

Languages: JavaScript, jQuery, Node JS(Beginner), Java(Beginner) , TypeScript, HTML5, CSS3

Tools/IDE: Visual Studio Code, Eclipse, Postman ,GIT, Gitbash, Git Hooks, Eslint, Prettier

PROJECTS

1. Game Hub | [Live](#) [Github](#)

- Users can easily search and find games based on their preferences.
- Efficient data fetching and caching using React Query for a smooth experience.
- Utilizes Zustand for simple and scalable state management.
- Seamless browsing with infinite scroll for continuous content loading.

Tech Stack - *HTML CSS Java script React Js Tailwind React Query Zustand npm TypeScript*

2. Issue Tracker | [Live](#) [Github](#)

- Tracking Users can create, edit, update, and delete issues efficiently.
- Assignment Issues can be assigned to other users for collaboration.
- Pagination, Filtering, and Sorting Easily navigate, filter, and sort issues for better management.
- The dashboard is fully responsive, providing a seamless experience across devices.

Tech Stack - *HTML CSS Java script NextJs Tailwind Tanstack Query TypeScript npm*

EDUCATION

AKADEMIA TECHNICZNO- INFORMATYCZNA W NAUKACH STOSOWANYCH (2022 - 2025)

Bachelor of Computer Science

CERTIFICATION

- ReactJs
- TypeScript
- JavaScript

HOBBY / ACHIEVMENTS

- Acquiring proficiency in coding.
- Listening music and playing out-door game like cricket.
